PROGRAMMED

INSTRUCTION

PROGRAMME INSTRUCTION

Thursdays

20 Lectures

The purpose of this course is to provide those who are interested in auto-instructional techniques and those who are beginning to write programmes, with a guide to the procedures successfully used by others in the field.

In business and industry more and more time is being spent by employees in the acquisition of new skills and knowledge. There is considerable evidence that in some areas of training, programmed instruction can accomplish more effective learning than the traditional methods of instruction.
